

ALEX JOYCE

Urban Planner

Alex Joyce earned his Masters Degree in Urban and Regional Planning from Florida State University. His areas of focus are in urban design, environmental planning, growth management and affordable housing. Alex believes that sustainable, inclusive, multi-modal cities are crucial, not only for the health of our environment, but for the health of our democracy.

Alex works with 3d modeling and graphic design software to bring planning ideas to life, helping clients visualize how their plans will look and feel on the ground. Work products include fully rendered site plans, video fly-throughs and photomorphs.

Projects Alex is currently involved in include a redevelopment site plan for Talent, Oregon, a development plan for several light rail stops along the new Expo Line in Los Angeles, a redevelopment plan for downtown Rolling Hills Estates, California; a downtown redevelopment plan for Mountlake Terrace, Washington, and a light rail site plan for Oak Forest, Illinois.
